

Subject: Comment on South Fork (from 800 line)

I took a call from Marv Beilski, commenting on South Fork Flathead. We can add his comment below to the comment log, but he is hoping to talk to someone about the project. Please forward if you are not the best person to make that contact.

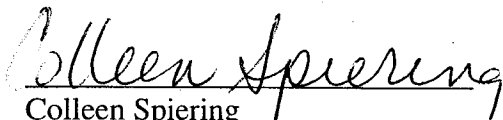

"I received a letter about the South Fork Flathead project asking for comments. It seems from the letter that you will be starting this project soon, but it is my understanding that it has already started. I looked through all the comments in the draft EIS and there didn't seem to be any positive remarks. It doesn't make sense that you would still be going forward with it at this point."

**CONVERSATION RECORD
SOUTH FORK FLATHEAD CONSERVATION PROJECT
November 1, 2005**

Marv Bielski called the BPA comment line and wanted to talk to someone about the project. I returned his call on November 1, 2005.

He stated the following

- People are not in favor of the project.
- He has heard from a Biologist at Montana Fish and Game that the project has already started.
- Montana Fish and Game is not capable of carrying out such a project.
